

Khanyisa!!!!

These sound resources can be used as 'alarm clocks', at your own leisure or used according to their 'titles' while doing other tasks.

\*this is less about 18h00 recurring within a framework of a strict 24 hour period, but the activities that occur laterally, underneath, above, beyond, inside, outside, tangentially and other-ways-that-are-p repositonal to this time.

\*the sound resources have times in their titles, which means if you play them at that time, the audio will cease at 18h00.

-----

Some thinking-while-listening notes for 18h00. Edit the list if you like.

- Maybe things will start
- \_programming
- \_radio programming
- \_tv programming
- \_switch on the lights!!
- \_internet connection getting better because housemates have finished their zoom calls
- \_a delivery service
- \_dinner guests coming over
- \_the sun is taking a nap now (depending on where you are)
- \_the sun is taking a nap now (depending on whether you have four seasons)
- \_the sun is taking a nap now (depending on whether you have rainy season/dry season)
- \_the sun is taking a nap now (Dec - Feb)
- \_the sun is taking a nap now (June - Aug)
- \_electricity comes back (load shedding schedule is over)
- \_an event/activity when you are ready

- Maybe things will continue [ongoing]
- \_23.4° axial tilt
- \_a syncopated circadian rhythm
- \_heating up your food
- \_a delivery service

\_loading internet data on your phone  
\_doing your hair in a protective style for the next syncopated  
circadian rhythm cycle  
\_copying data from a usb  
\_your tea is getting cold! Maybe you should drink it  
\_rain  
\_bigger rain droplets  
\_back to the first rain  
\_a few remnants of the bigger rain droplets  
\_now back to the rain  
\_digestion  
\_dinner guests coming over  
\_tides rising  
\_an event/activity when you are ready

Maybe things will end (?)

\_programming  
\_raio programming  
\_tv programming  
\_public transport routes  
\_a delivery service  
\_shops are closing  
\_electricity is gone (load shedding schedule starts)  
\_an event/activity when you are ready
